

Aspiring Fund

The Aspiring Fund is a PIE fund managed by Aspiring Asset Management Ltd which has 5 principals, Murray Doyle, Campbell Stuart, Lance Reynolds, Peter Wright and David Lane. It invests predominantly in Australasian equities, an area where the team have a collective 150 years of experience. The Fund has a broad mandate with a focus on positive absolute returns and capital preservation. This bias towards capital preservation has seen the breadth of mandate used to invest in a range of other securities such as cash, corporate credit instruments, futures, currency hedges and options.

Performance

The value of this mandate flexibility is evident in the Fund's performance. The following table shows annualised returns with the Aspiring Fund's returns after all fees (and taxes for the pre-PIE period).

Comparisons between the unit price performance of the Aspiring Fund and Australian and New Zealand market indices prior to the introduction of the "PIE" regime are not particularly valid. In that period the Fund paid full tax on all capital gains whereas the indices' performance is without any allowance for tax. That the unit price of the Fund matched the performance of the New Zealand index in a rising market prior to the introduction of the PIE regime suggests a level of out performance not picked up by the graph.

Aspiring Fund

The Fund invests on a completely index-unaware basis, as the mandate implies. However, the principals monitor performance relative to the New Zealand and Australian sharemarket indices to ensure value is being added over the long term.
